MATHEMATICS AT GRIFFYDAM

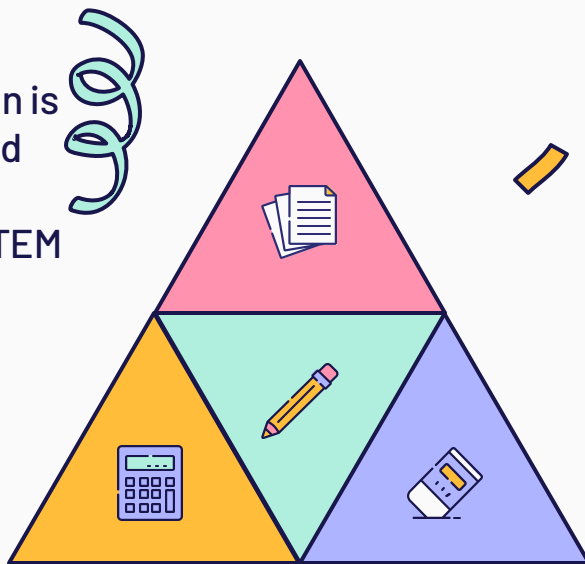

Arithmetic

A separate arithmetic lesson is taught daily to ensure a good understanding of the 4 operations. Class 2 use NCTEM mastery slides.

Problem Solving

The children have an opportunity to experience maths across the curriculum. For example in Science

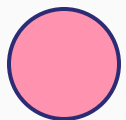

WhiteRose

We have always used the WhiteRose overview for maths but we now use the resources and booklets in our lesson.

TTRockstars
Work sheets

01

Arithmetic

$$2+2$$

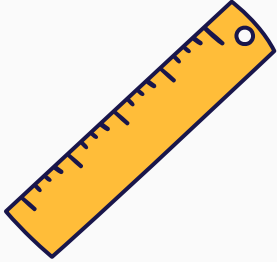

In Class 2 we use Rekenreks for our Arithmetic lessons

Rekenreks can be used to help children develop confidence and fluency with number. The NCTEM project that we follow at Griffydam aims to develop a good number sense for all children so that they leave KS1 with fluency in calculation.

02

White Rose

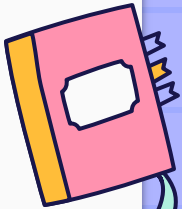

$$2+2$$

1

We have used the WhiteRose overview for the last 5 years. But we made the decision to invest in the workbooks and use their teaching resources. This has made a fantastic impact³ on the way that we teach maths at Griffydam.

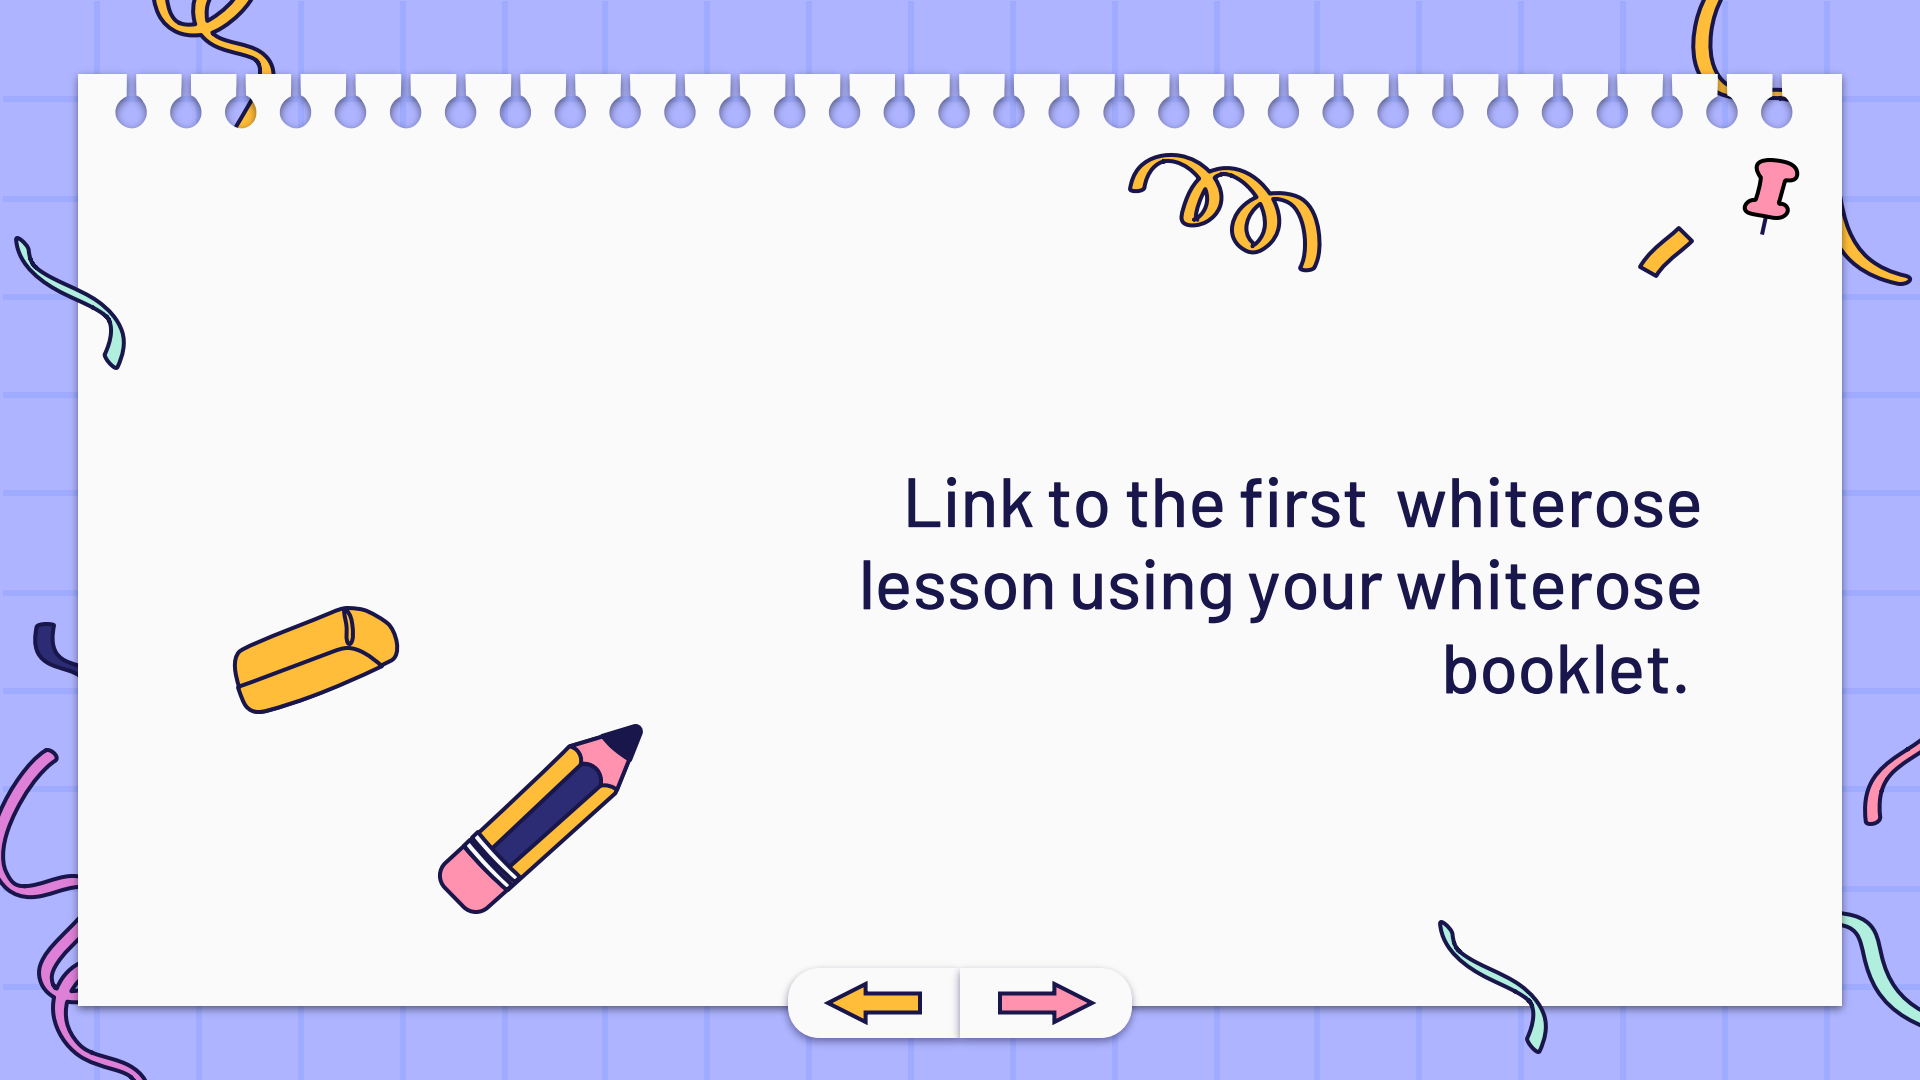

2

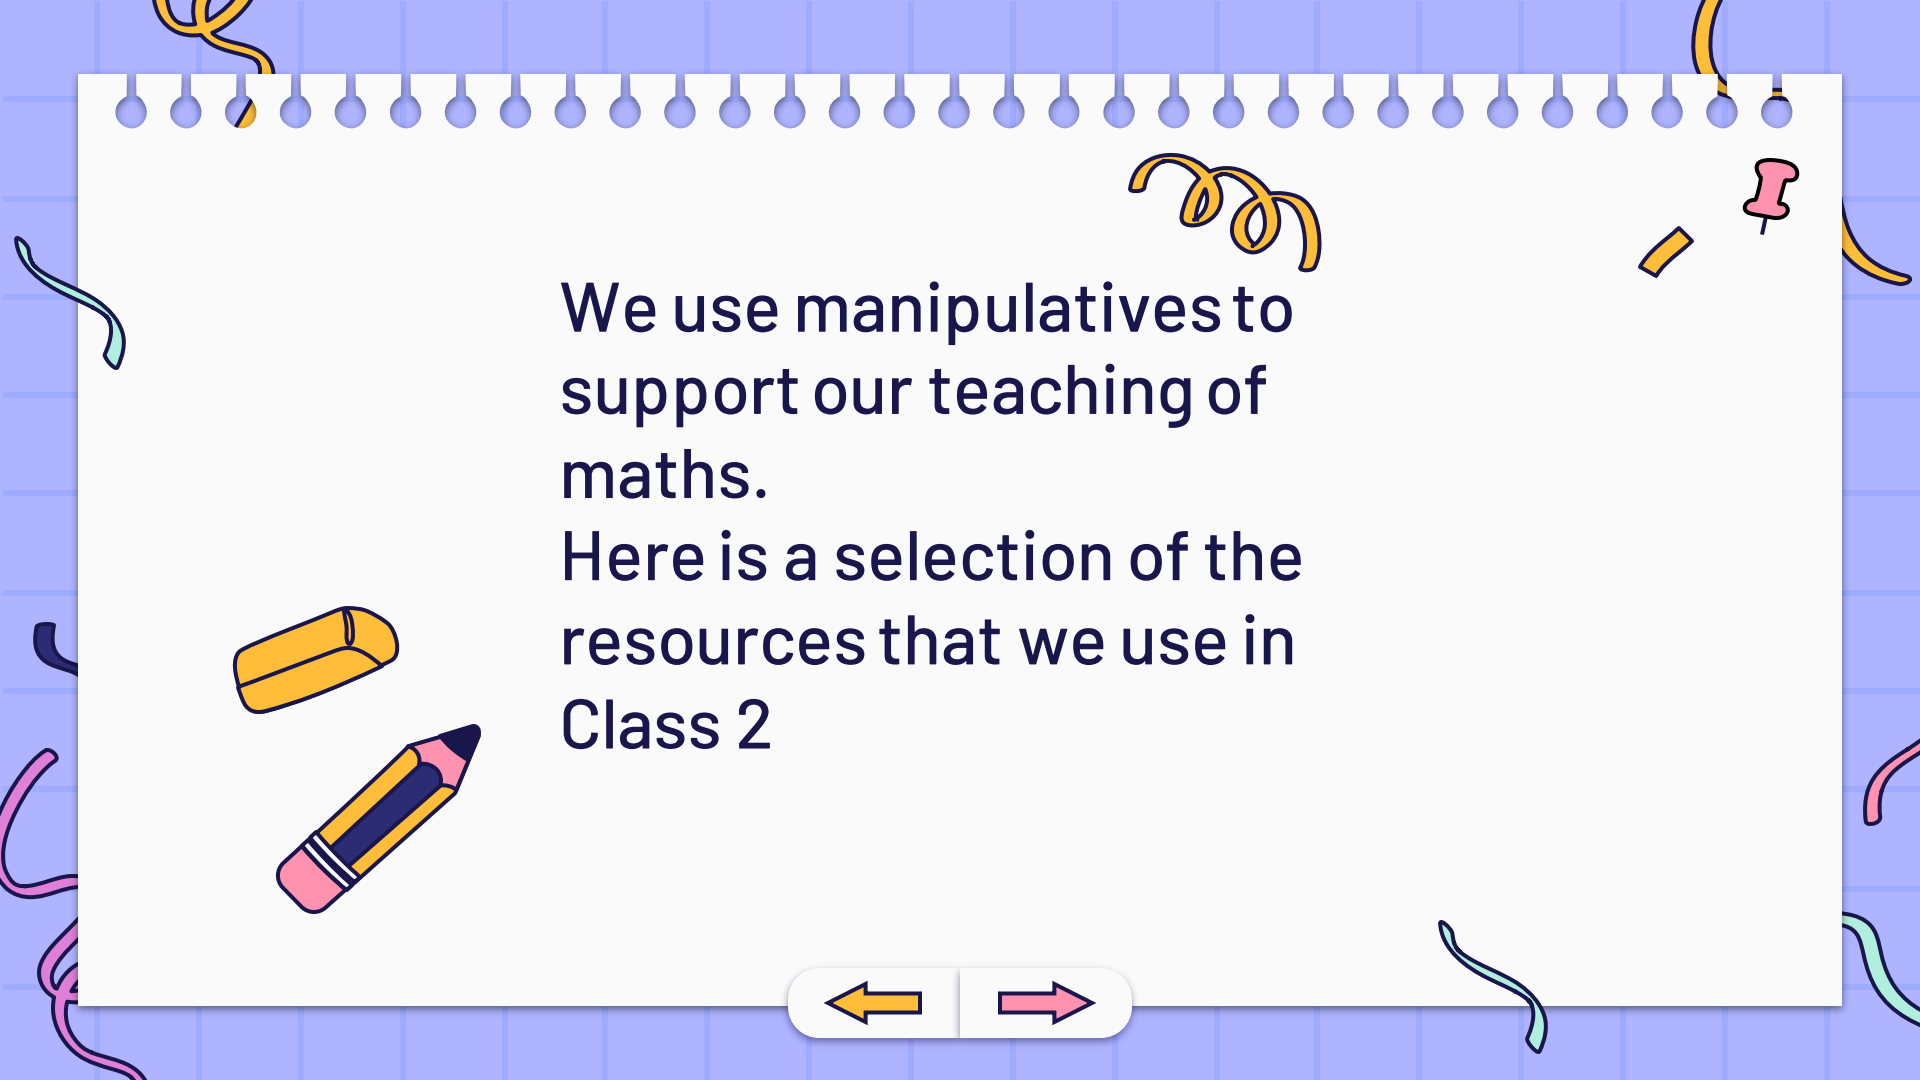

We will be coming around and handing out the copy of the first booklet for the spring term. We will quickly go through the slides then you can have a few minutes to answer some of the question with the children.

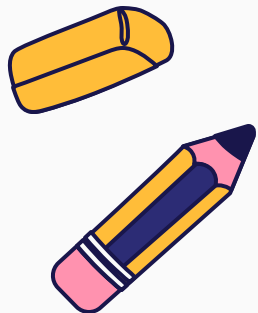

Link to the first whiterose
lesson using your whiterose
booklet.

We use manipulatives to support our teaching of maths.

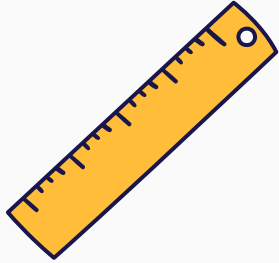

Here is a selection of the resources that we use in Class 2

03

Resources to support at
home.

$2+2$

Websites to support Maths

WhiteRose- Link

Links to Video's that will inform you about how the current maths topic you child is learning is taught

TimesTablesRockStars

A fun program to consolidate knowledge of the times tables

Home work

Century Nuggets are given weekly for Homework

MiniMaths

A site full of resources to help with arithmetic and maths across the Primary age range

SATS Support

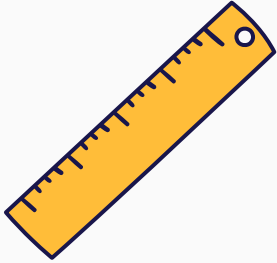

There are lots of resources to help you to understand the types of questions that will be covered in the SATS papers.
